

## Conference: **The International Conference on Intelligent Computing and Optimization (ICO'2023)**

**Publication:** The **peer-reviewed and accepted papers of ICO 2023 will be published as Book Chapters in the Springer Nature, Lecture Notes in Networks and Systems (Scimago, Q4). International Program Committee (IPC) will select high-quality papers for further review and publication in SCOPUS and WoS/ISI/ESCI journals.**

**Publication Link Series:** <https://www.springer.com/series/15179>

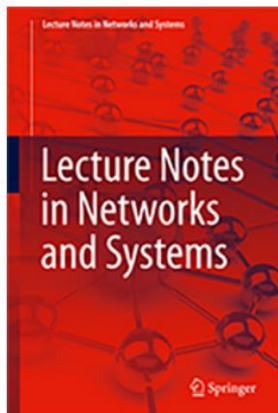

### **Special Session: Data Science, Business Systems, and Application of Mathematics**

The Data Science and Business Systems (DSBS) area prepares the next generation of practitioners and researchers with equal appreciation for a data-centric world and human values, with the capability to securely store and distribute the data, innovate tools and techniques for efficient data visualization for supporting business ecosystems. Mathematics is an integral part of data science. Any practicing data scientist or person interested in building a career in data science will need to have a strong background in specific mathematical fields. Combining the three thematic areas in the current scenario promises a great deal of knowledge and development.

### **Special Session Organizers**

- Dr. Ravindra Boojhawon, Professor, Department of Mathematics, University of Mauritius
- Dr. Shrijan Gyanwali, Associate Professor, School of Business, Pokhara University, Nepal
- Dr. Deepmala Shrestha, Assistant Professor, School of Business, Pokhara University

**Reviewed and Selected Papers will be published in:**

### **Important Dates:**

Workshops/Tutorial Proposals	<b>10 January 2023</b>
Full paper/ Posters/ Demos	<b>19 February 2023</b>
Acceptance Documentation	<b>28 March 2023</b>
Camera ready deadline	<b>19 April 2023</b>

Online Information is available at: <https://www.icico.info/>

Submit your paper through the link: <https://www.icico.info/paper-submission>
